Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Responsive to the Office Action mailed June 18, 2002, the applicant elects Group I with traverse. The applicant respectfully traverses because all claims share the same special technical feature, HIV gp160 trimers. All the claims are directed to composition or methods relating to HIV gp160 trimers. The prior art (including U.S. 6,140,059, cited by the Examiner) does not disclose purified trimers or methods of making them, as presently claimed. In view of the foregoing, the applicant submits that restriction is improper and respectfully requests its reconsideration and withdrawal.

If there are any questions or comments regarding this Response or application, the Examiner is encouraged to contact the undersigned attorney as indicated below.

Respectfully submitted,
